EDUCATION

2019 - 2021 HI-TECH INSTITUTE OF ENGINEERING AND TECHNOLOGY

- Master of Computer Applications

2016 - 2019 MMH COLLEGE, GHAZIABAD

- Bachelor of Computer Application

SKILLS

- Cybersecurity Assessment.
- Azure AI Service Assessment.
- API Implementation.
- Software Development (C#, ASP.NET Core, ASP.NET).
- Database Management (SQL Querying, SQL Procedures).
- PowerShell Scripting.
- Client Relationship Management.
- Azure Marketplace Offer Creating and Listing.
- Research and Development (R&D).
- Lansweeper.
- Lansweeper integration in Copilot studio

WORK EXPERIENCE

UnifyCloud LLC Jan 2022 - Present

Software Developer Engineer & Security Analyst

- **Cybersecurity Webjob:** Built ASP.NET tool to gather security data via APIs from On-Premises, Azure, M365.
- **Updates:** Enhanced Webjob with new security features, ensuring compliance.
- **Azure AI Assessment:** Evaluated Azure AI for security optimization, threat detection.
- **Data Integration:** Led security data collection, API setup for client portals.
- **Automation:** Designed automated data processing in WebJob for efficiency.
- **Reporting:** Created concise security reports with actionable insights.
- **Azure Marketplace:** Developed, listed security solutions on Azure Marketplace.
- **Copilot Agent + Lansweeper:** Integrate Lansweeper in copilot agent to analyzes queries and automates responses, while Lansweeper discovers, inventories, and manages IT assets.

SDE - Trainee July 2021 - Dec 2022

- **C# for APIs:** Enhance C# skills for integrating RESTful services and Microsoft Graph API.
- **Azure & O365 Projects:** Develop projects using Microsoft Azure and Office 365 APIs.
- **R&D:** Research new tools and best practices in Microsoft's ecosystem.

LEARNING BADGES AND CERTIFICATIONS

- Describe security and compliance concepts.
- Introduction to Zero Trust and best practice frameworks.
- Describe Microsoft Copilot for Security.
- Describe network-based threats and mitigations.
- Describe basic cybersecurity threats, attacks, and mitigations.
- Describe authentication and authorization in cybersecurity.
- Describe cloud computing.
- Advance Cyber Security - Threat and Governance.
